Dear Dr. Young:

I appreciate your most interesting letter of December 27th involving the assassination of President Kennedy.

As a member of the Warren Commission I was very conscientious about my participation in the hearings. However, I have no recollection of "the spent bullet" you refer to.

Enclosed a document I send out to individuals who ask me my current views on the conclusions of the Warren Commission.

There are several excellent books on the assassination which might be helpful.

1.) Nov. 22, 1963: You Are The Jury, by David Belin.

2.) Case Closed, by Gerald Posner.

Both of these books should be in any major public library.

Best regards,

Dr. James M. Young
